

Farouk Elbaz Library

In 2018, Farouk El-Baz Centre for Sustainability & Futuristic Studies received a Scientific Gift from Prof Farouk El-Baz with Drafts and published of his scientific Journey. About 57 boxes were shipped from the US to the Centre with: books, reprints, scientific papers, scientific articles, publications, video tabs &, etc. The responsibility is how to make the technology transfer and make all these studies available to scientific research for nowadays and future generations. In November 2019, the Center started to archive these documents by categorizing them based on the study field. In addition to that, an abstract for each document is mentioned to illustrate and explain the document-studying field and to help the researchers to get easily to the selected point of the study. The main task is to accomplish the following:

– Establishing a library titled “Farouk El-Baz Library” inside Farouk El-Baz Centre for Sustainability & Futuristic Studies as a reference for any seeker for scientific data about Farouk El-Baz’s accomplishments, character or own scientific work.

Putting an outline guide for researchers in different fields to be used in future research.

Farouk El-Baz Documentary

Farouk El-Baz’s documentary focuses on understanding the patterns and mechanisms underlying several areas of study related to the advanced scientific research which we aim to reach. The centre is based in Egypt, where we are proud to establish a creative, collaborative, and open cultural studies research centre.

About the library:

The responsibility of the documentary is about technology transfer and making all these studies available to scientific research for today and future generations. It gathers a number of research and studies including advanced scientific research which will help undergraduates, graduates, and researchers. This documentary aims at;

- Archiving all studies and research of Prof. Farouk El-Baz.
- Access to special research studies related to Prof. Farouk El-Baz’s work in several fields.
- Opening new fields and horizons for scientific research to help Egypt’s Future.
- Establishing a library titled “Farouk El-Baz Library” inside Farouk El-Baz centre for Sustainability & Future Studies as a reference for any seeker for scientific data.

Egyptian scientist Prof. Farouk El-Baz

Digital Library

Online Access
