

Faculty of Business Administration, Economics, and Political Science (BAEPS)

Department of Business Administration (Finance)

Undergraduate Programme (Webpage)

About the Programme:

Accounting and Finance are at the core of every thriving business and economy. Our undergraduate Accounting & Finance Programme prepares students to become future leaders who can navigate the complexities of global financial systems with confidence and integrity.

The programme blends academic excellence with practical experience, equipping students with a strong foundation in accounting principles, financial management, auditing, taxation, and investment analysis. It bridges theory with real-world application, ensuring graduates are ready to meet the demands of today's dynamic markets shaped by digital transformation, sustainability, and globalization.

Whether you aspire to become a financial analyst, auditor, accountant, or corporate strategist, this programme provides the essential tools and insights to drive informed financial decisions and contribute to organizational success.

Mission:

To deliver a student-centred finance and accounting education that meets UK and Egyptian quality standards, preparing ethical, globally minded graduates with the skills, adaptability, and innovation to excel in business and contribute to sustainable societal impact.

Why this Programme:

The Accounting & Finance Programme offers a comprehensive foundation for students

seeking to excel in the financial and business sectors. It provides an academically rigorous curriculum that integrates core areas such as financial reporting, auditing, investment management, and corporate finance, while introducing emerging topics like FinTech, behavioural finance, and Islamic finance.

Through strong industry links, practical projects, and internship opportunities, students gain both theoretical knowledge and real-world experience, preparing them to pursue professional certifications and succeed in a rapidly evolving global financial environment.

| | | | XXBACC12H | 10 | Special Topics in Accounting |
| | | | XXBFIN11H | 10 | Islamic Finance |

Progression Requirements

To progress successfully through the Finance Specialisation, students must:

- Achieve passing grades in core modules (principles of finance, financial markets, and investment management).
- Maintain a minimum GPA requirement (as set by the university) across all finance courses.
- Demonstrate competence in both theoretical understanding and applied financial analysis.
- Engage in applied projects, internships, or research activities that link classroom learning to real-world financial practice.

Meeting these requirements ensures you are not only academically prepared but also career-ready, with the technical, analytical, and strategic skills demanded by employers in banking, investment, fintech, consultancy, and beyond.
