

Workshops

CRE organized workshops

CRE organized a workshop on: “Local and Regional Renewable Energy Manufacturing Opportunities” May 2012.

CRE offered a training workshop on “Renewable Energy Technologies” to BUE graduates and undergraduates group work for Sayedna Elkhedr project.

Organizing a workshop titled: “Energy Technologies Track” organized by Dr Tarek Hatem on the Industry Academia Collaboration Conference IAC2014, Fairmont Heliopolis Hotel, 3-5 March 2014.

CRE offered a training workshop on “Solar Energy Systems”, August 2015.

CRE offered a training workshop on “Manufacturing PV Cells and Hands-on Solar Photovoltaic System Efficiency Measurements”, Summer Training for BUE students since 2016.

Training course on Introduction to wind energy, 22nd-23rd Jan 2020: This training course was a crash course where the material prepared during the WESET project was used to deliver the course. The course was delivered by 3 staff members from BUE staff. The course was attended by 30 graduating students.

CRE Participation in international Conferences

Attending AFA Workshop “Renewable Energy in Fertilizer Industries & Energy Auditing”; April 28 – 30, 2013 – Le Meridien Amman – Jordan, and making a presentation titled: “Efforts of the Centre For Renewable Energy CRE (British University in Egypt BUE) to Build a Renewable Energy Know-How”.

International Congress on Materials and Renewable Energy (MRE 2013), Athens, Greece, July 2013.

Dr.Iman El-Mahallawi attending European Steel Environment & Energy CongressESEC2014, Teesside University, 15-17 September 2014.

Two CRE staff members, Dr. Ahmed Abdel-Azim and Dr. Tariq Hatem, have been chosen to attend the researcher links workshop targeting solar and wind energies which is organized by the University of Nottingham and held in London under the support of the British Council, UK, March 31st to April 3rd 2014.

Professor Iman El-Mahallawi attended 7th International Materials Education Symposium, Clare College University of Cambridge, UK April 9-10, 2015.

CRE Participation in local meetings and workshops

May 2013, contributing in:

Dr Ahmed Abdelazim attended Train-the-trainer Programme on Solar Thermal, organized by RENAC (Germany) and OASIS Solar Academy Egypt (ROSAE) in collaboration with the Solar Energy Development Association of Egypt (SEDA) and supported by the German Development Cooperation, Private Sector Development Programme (GIZ-PSDP). (13– 16 April 2014 & 15– 18 June 2014) and got

training-the-trainers certificate.

Contributed in: Industry academia collaboration conference IAC2014, Cairo, Egypt, March 2014.

Taking part in the Workshop on “Fostering Renewable and Sustainable Energy in Africa through R&D”, 21thJanuary 2014, organized by the Ministry of Trade and Industry.
