

The accomplishment of the Evacuation Drill successfully.

Monday 5 July 2021

- During the drill, the following was performed:
- Staff and Students were gathered, with social distancing, in A-LH3 to have a quick lecture delivered by Industrial Security department regarding on how to act in case of a Fire. The attendance was about 70 staff and students (attached Photo).
- The fire alarm went off and all students and staff evacuated the building following the instruction of organizing staff. This took less than 5 minutes to evacuate the 4-storey building and make sure all rooms, halls, labs and venues were evacuated.
- Everyone gathered at assembly point till they received confirmation that the evacuation was fully accomplished, and the building is safe.
- A post-drill meeting will be held to gather all feedback on the process and put recommendations for future evacuation drills to enhance the performance.
